LIST OF ACRONYMS

BTI	Business Tendency Index
BOU	Bank of Uganda
B.Franc	Burundian Franc
CIEA	Composite Index of Economic Activity
EAC	East African Community
EFU	Energy, Fuels and Utilities
FX	Foreign currency
FY	Financial Year
HIPC	Heavily Indebted Poor Countries
HPP	Hydro Power Plant
ICBT	Informal Cross Border Trade
KShs	Kenyan Shilling
MDAs	Ministries, Departments and Agencies
MOFPED	Ministry of Finance, Planning and Economic Development
NGO	Non-Government Organisation
PAYE	Pay as You Earn
PMI	Purchasing Managers Index
PSC	Private Sector Credit
R.Franc	Rwandese Franc
T-Bills	Treasury Bills
T-Bonds	Treasury Bonds
TShs	Tanzanian Shilling
Shs	Ugandan Shilling
US\$	United States Dollar
UBOS	Uganda Bureau of Statistics
VAT	Value Added Tax

GLOSSARY

Bid to cover ratio	This is an indicator for the demand of government securities in a given auction. A ratio equal to 1 means that the demand for a particular security is equal to the amount offered by government. A ratio of less than 1 means the auction is undersubscribed and a ratio of greater than 1 means that the auction is oversubscribed.
BTI	The Business Tendency Index measures the level of optimism that executives have about the current and expected outlook for production, order levels, employment, prices and access to credit. The Index covers the major sectors of the economy, namely construction, manufacturing, wholesale trade, agriculture and other services. The Overall Business Tendency Index above 50 indicates an improving outlook and below 50 a deteriorating outlook.
CIEA	CIEA is constructed using seven variables, that is; private consumption estimated by VAT, private investment estimated by gross extension of private sector credit, government consumption estimated by its current expenditure, government investment estimated by its development expenditure, excise duty, exports and imports. Data comes with a lag of one month.
Core Inflation	This is a subcomponent of headline inflation that excludes items subject to volatility in prices. It excludes energy, fuels, utilities, food crops and related items.
Headline Inflation	This refers to the rate at which prices of general goods and services in an economy change over time, usually a year.
Non-Performing Loans	This is a sum of borrowed money upon which the debtor has not made scheduled payments for a period usually at least 90 days.
Tenor	This refers to the time-to-maturity of an instrument, for example, if a certain instrument matures after 91 days – it is called a 91-day tenor.
PMI	The PMI is a composite index, calculated as a weighted average of five individual sub-components; New Orders (30%), Output (25%), Employment (20%), Suppliers' Delivery Times (15%), and Stocks of Purchases (10%). It gives an indication of business operating conditions in the Ugandan economy. The PMI above 50.0 signals an improvement in business conditions, while readings below 50.0 show a deterioration. The PMI is compiled monthly by Stanbic Bank Uganda.
Yield to Maturity (YTM)	Yield to maturity (YTM) is the total return anticipated on a treasury instrument if the instrument is held until it matures.

SUMMARY¹

Real Sector

- Headline inflation continued on a downward trend declining to 2.1% for the year ending August 2019 from 2.6% recorded for the year ended July 2019. The decline was majorly on account of a fall in core inflation coupled with a large decline in prices for Food Crops and Related Items.
- There was an improvement in the level of economic activity according to the Purchasing Managers' Index (PMI) and Composite Index of Economic Activity (CIEA).
- Investor's sentiments about doing business in Uganda remained positive in August 2019 as illustrated by the BTI which remained above the indicative threshold of 50, despite a slight reduction from 57.87 in July 2019 to 57.84 in August.

Financial Sector

- The Ugandan Shilling traded at an average of **UShs 3,693.73** to the US Dollar in August 2019, recording an appreciation of 0.1%, following the sustained increase in supply of foreign currency and particularly US Dollars, to the Interbank Foreign Exchange Market (IFEM).
- Lending rates for Shilling denominated credit increased from 19.02% in June to **21.44%** in July 2019. Similarly, lending rates for foreign currency denominated credit increased from 6.43% in June to 6.92% in July 2019.
- Yields (interest rates) on Treasury-bills reduced for the 91-day T-Bill, whereas they increased for the 182-day T-Bill and 364-day tenor.
- UShs **857.68 billion** (at cost) was raised from four auctions of Government securities in August. Securities worth UShs 474.05 billion were issued for refinancing of maturing debt whereas, UShs 383.63 billion went towards financing other activities in the Government budget.
- The **stock of private sector credit** increased by 0.9% from UShs. 15,092.2 billion in June to **UShs. 15,226.26** billion in July 2019,.

External Sector

- In comparison with June 2019, the **merchandise trade deficit** narrowed by 17% from US\$ 278.91 million to US\$ 231.42 million in July 2019. **Export**

¹ Data on Private Sector Credit, CIEA and External sector has a lag of one month.

August 2019 Performance of the Economy Report

earnings grew by 5.9% from US\$ 300.63 million in June 2019 to US\$ 318.43 million in July 2019, whereas, the value of merchandise **imports dropped by 5.12%** from US\$ 579.54 million in June 2019 to US\$ 549.85 million in July 2019.

- However, compared to July 2018, the merchandise trade deficit increased from US\$166.56 million to US\$ 231.42 million in July 2019 following high growth in the import bill (21.9%) that more than offset growth in export receipts (11.9%).
- In the month of July 2019, Uganda posted **merchandise trade deficits** with the regions of Asia, Rest of Europe, EAC, the Americas & Others, whereas, trade surpluses were registered for Rest of Africa, Middle East and the European Union.

Fiscal Sector

- Government operations in August 2019 resulted into a fiscal deficit of US\$ 1,076.66 billion which was lower than the program for the month of US\$ 1,893.1 billion. This was mainly due to underperformance in expenditure and net lending (by 31.6%) which more than offset the shortfalls in revenue and grants (of 18.7%)

East Africa Community

- There was a general decline in Annual Headline Inflation within the East African Community. **Annual Headline Inflation** for Kenya reduced from 6.27% in July to 5.0% in August. Similarly, Tanzania's Annual Headline Inflation slightly decreased to 3.6% in August 2019 from 3.7% recorded the previous month. In contrast, Rwanda's annual inflation rose to 2.8% in August from 1.6% in July, its highest level since October 2017
- Contrary to the strengthening of the Ugandan shilling against the US dollar, Kenya's, Burundi's and Rwanda's currencies slightly **depreciated** against the US Dollar in August 2019 by 0.1%, 0.3% and 0.4% respectively. The value of the Tanzanian Shilling **remained unchanged** from the previous month against the US Dollar.
-
- In July 2019, Uganda traded at a **deficit** with the EAC at US\$ 54.98 million compared to a surplus of US\$ 65.68 million recorded a year ago. Over the same period, exports to EAC declined by 41.8% whereas imports increased by 131.1%.

REAL SECTOR DEVELOPMENTS

Inflation

Figure 1: Inflation [Headline & Core] (Source: UBoS)

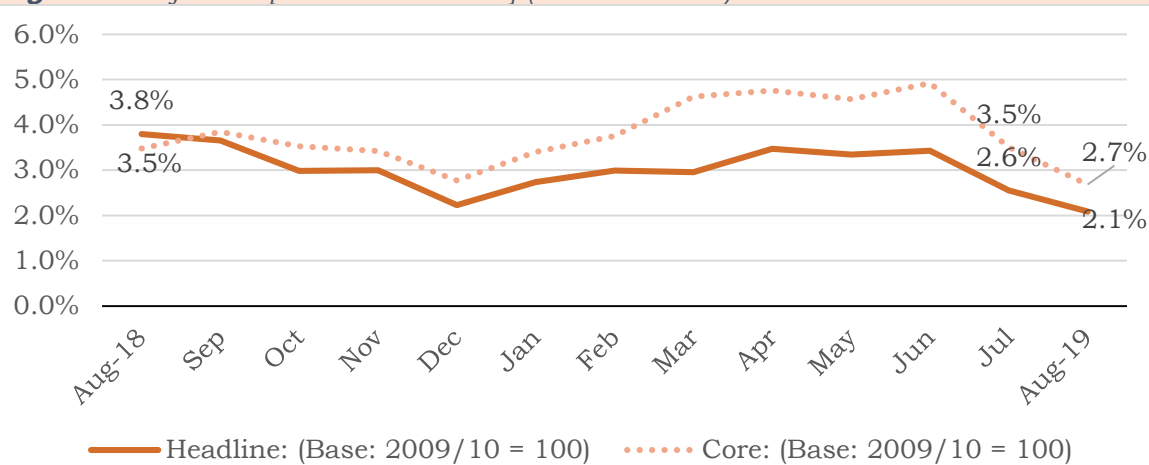

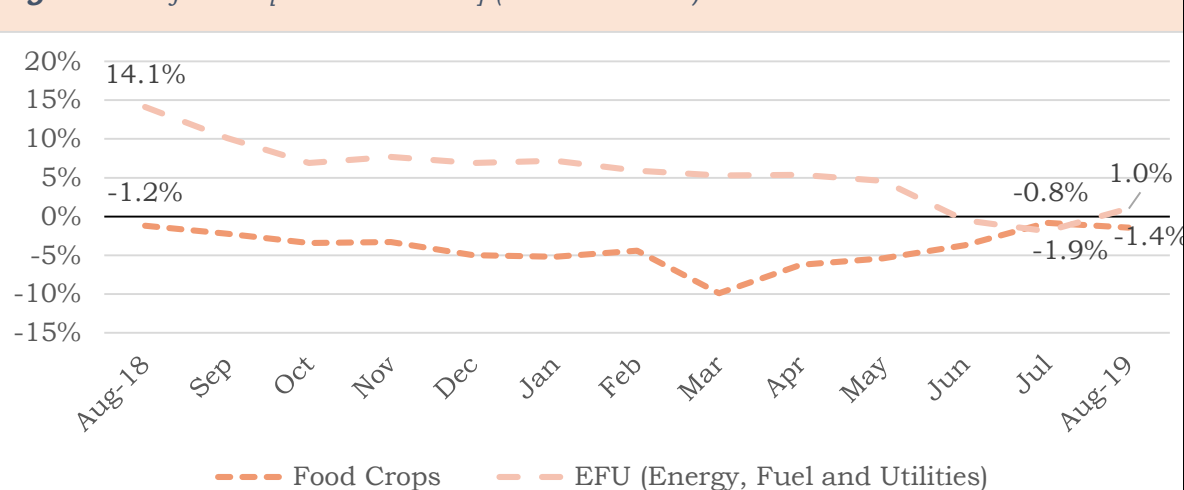

Figure 2: Inflation [Food and EFU] (Source: UBoS)

Headline inflation continued on a downward trend declining to **2.1%** for the year ending **August 2019** from 2.6% recorded for the year ended July 2019. The decline was majorly on account of a fall in core inflation coupled with a large decline in prices for Food Crops and Related Items. The slowdown in core inflation was mainly as a result of a more significant decline in prices for sugar (-13.4% from -4.2%), and a slowdown in price increases for clothing and footwear as well as services. **In contrast, EFU Inflation** rebounded from -1.9% recorded for the year ended July 2019 to 1.0% for the year ending August 2019, particularly driven by continued increase in charcoal prices. Nevertheless, prices for liquid fuels (kerosene, diesel, petrol) declined.

Economic activity

Figure 3: Economic activity [PMI] (Source: Stanbic Bank Uganda)

Figure 4: Economic activity [CIEA] (Source: BoU)

The **PMI** posted **57.5** in August above the threshold of 50.0 signalling an improvement in business conditions. The PMI of 57.5 in August is lower compared to 58.2 in July. The decline in the PMI can be explained by increased input costs. Nonetheless, there was an increase in new orders and output.

The **CIEA²** improved by 0.3% from 232.42 in June to 233.05 in July 2019 indicating improvement in the levels of economic activity. Growth rates for the last four months have been constant at 0.3%.

² CIEA data comes with a lag of one month.

Economic perceptions

Figure 5: Economic Perceptions as shown by BTI (Source: BoU)

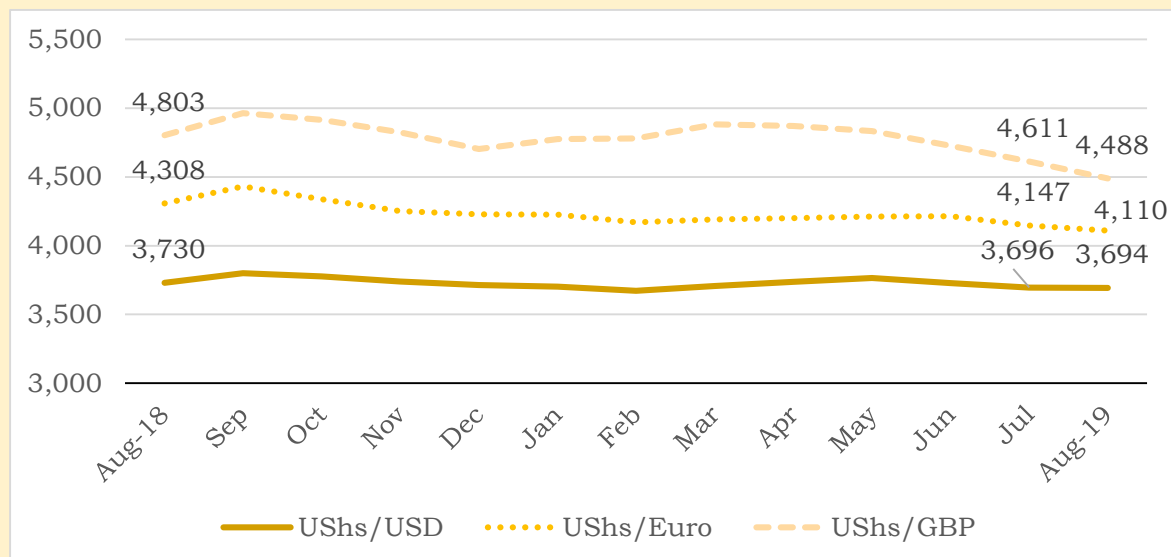

Investor's sentiments about doing business in Uganda **remained positive** in August 2019 as illustrated by the BTI which remained above the threshold of 50, despite a slight reduction from 57.87 in July 2019 to **57.84** in August. Business sentiments were highest in the agriculture sector and lowest in wholesale trade.

FINANCIAL SECTOR DEVELOPMENTS

Exchange rate movements

Figure 6: Exchange rates (Source: BoU)

The Uganda shilling remained fairly stable against the US Dollar appreciating by a paltry 0.1% in August 2019. The US Dollar traded at an average midrate of **UShs 3,693.73** compared to UShs 3,696.49 the previous month. This was as a result of the sustained increase in supply of foreign currency and particularly US Dollars, to the Interbank Foreign Exchange Market (IFEM), coming mainly from NGO inward remittances, which more than met the demand from manufacturing and energy sectors.

Similarly, the shilling strengthened against both the Euro and the Pound Sterling, appreciating by 0.9% and 2.7% respectively.

Interest rate movements

Figure 7: Interest rates (Source: BoU)

In the month of August, the Central Bank policy rate remained unchanged at **10.0%** as a result of a fairly stable 12-month inflation forecast/ outlook. This Rate has been maintained at this level since October 2018. Notwithstanding, the **shilling denominated lending rates** remain elevated, increasing from 19.02% in June to **21.44% in July 2019**. This is in-part due to the high operational costs borne by the commercial lenders coupled with their risk averse tendencies.

Likewise, foreign currency lending rates slightly increased from 6.43% in June to 6.92% in July 2019.

Treasury bills

Figure 8: Treasury bill yields (Source: BoU)

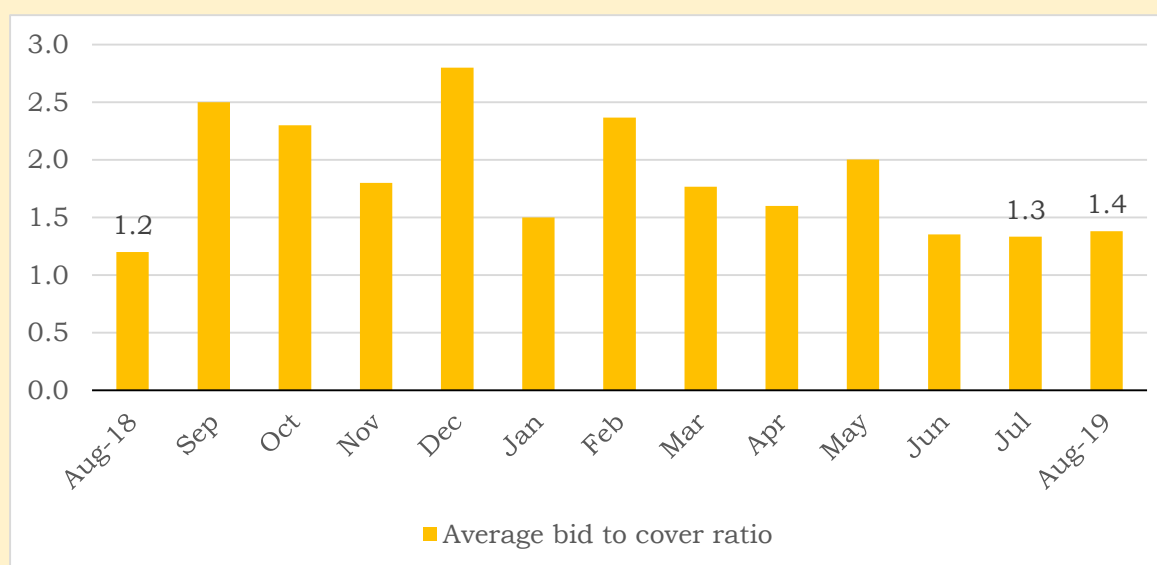

Figure 9: Average bid to cover ratio (Source: MoFPED)

Treasury bill yields (interest rates) increased for all tenors except the 91-day tenor. The annualised treasury bill yields for August were 8.97%, 10.89% and 11.58% for the 91, 182 and 364 day tenors, respectively. This compares with 9.75%, 10.83%, 11.51% in July 2019.

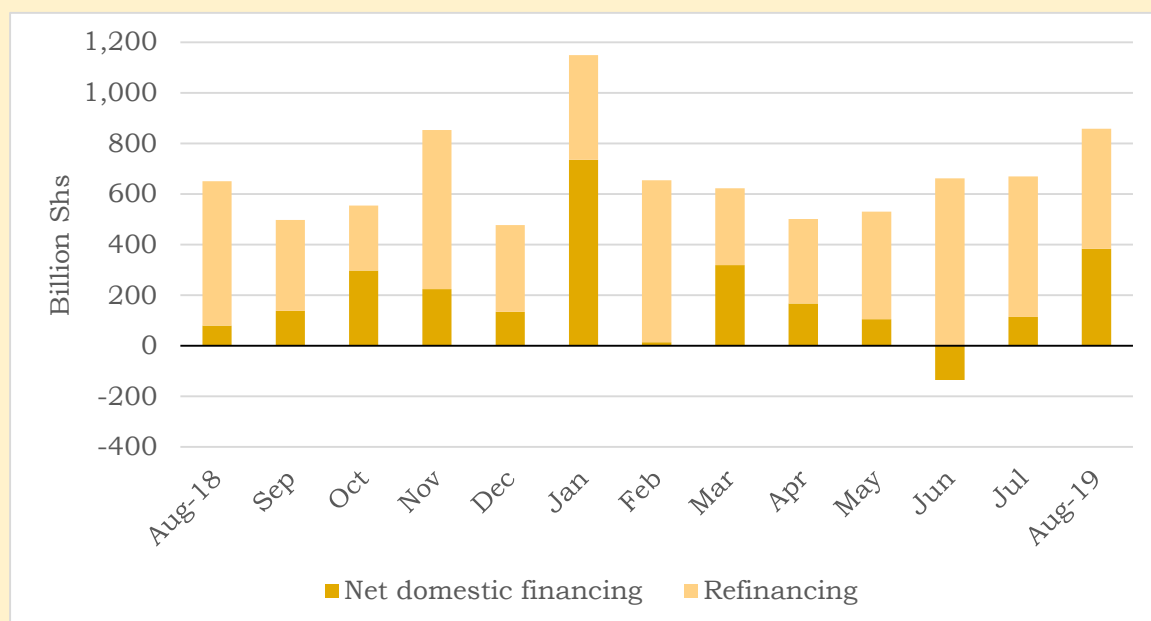

The **Average bid to cover ratio** for the month of August was 1.4 compared to 1.3 registered the previous month.

Government securities

Table 1: Breakdown of Government Securities in Billion Shs (Source: MoFPED)

	Total issuances	Net domestic financing	Refinancing
July 2019	669.34	114.62	554.72
August 2019	857.68	383.63	474.05
FY 2019/20 to date	1,527.02	498.25	1028.77

Figure 10: Breakdown of government securities (Source: MoFPED)

During the month of **August 2019**, there were 3 T-Bill auctions and 1 T-Bond auction in the primary market. US\$ **857.68 billion** (at cost) was raised, of which US\$ 580.5 billion was from T-Bills and US\$ 277.18 billion was from T-bonds. Securities worth US\$ **474.05** billion were issued for refinancing of maturing debt whereas, US\$ **383.63** billion went towards financing other activities in the Government budget.

Outstanding private sector credit³

Figure 11: Outstanding private sector credit (Source: BoU)

Figure 12: Monthly growth of private sector credit (Source: BoU)

The **stock of private sector credit** increased by 0.9% from US\$ 15,092.2 billion in June to **US\$ 15,226.26** billion in July 2019. The continuous growth in the stock of credit is partly attributable to the sustained improvement in economic activity and the supportive monetary policy stance.

³ Data on private sector credit has a lag of one month.

Credit extensions⁴

Figure 13: New credit extensions approved in July 2019 (Source: BoU)

Similar to the previous month (June 2019), the **Trade sector** received the largest share of credit approved in July 2019 at **24.1%**. Other notable sector recipients of new credit during the month were Personal loans and Household loans (16.5%), Building Construction and Real Estate (15.9%) followed by Manufacturing sector at 10.3%.

⁴ Data on private sector credit has a lag of one month.

EXTERNAL SECTOR DEVELOPMENTS

Merchandise trade balance⁵

Figure 14: Merchandise exports and imports (Source: BoU)

Figure 15: Merchandise trade balance (Source: BoU)

Uganda's **merchandise trade deficit narrowed on a monthly basis** whereas it increased on an annual basis. In comparison with the previous month, the merchandise trade deficit narrowed by 17% from US\$ 278.91 million to US\$ 231.42 million in July 2019, following a decline in imports and an increase in exports.

Compared to July 2018, the merchandise trade deficit increased from US\$166.56 million to US\$ 231.42 million in July 2019. This was explained by higher growth in imports that more than offset growth in exports.

⁵ Statistics on trade come with a lag of one month.

Merchandise exports⁶

Figure 16: Merchandise exports by product (Source: BoU)

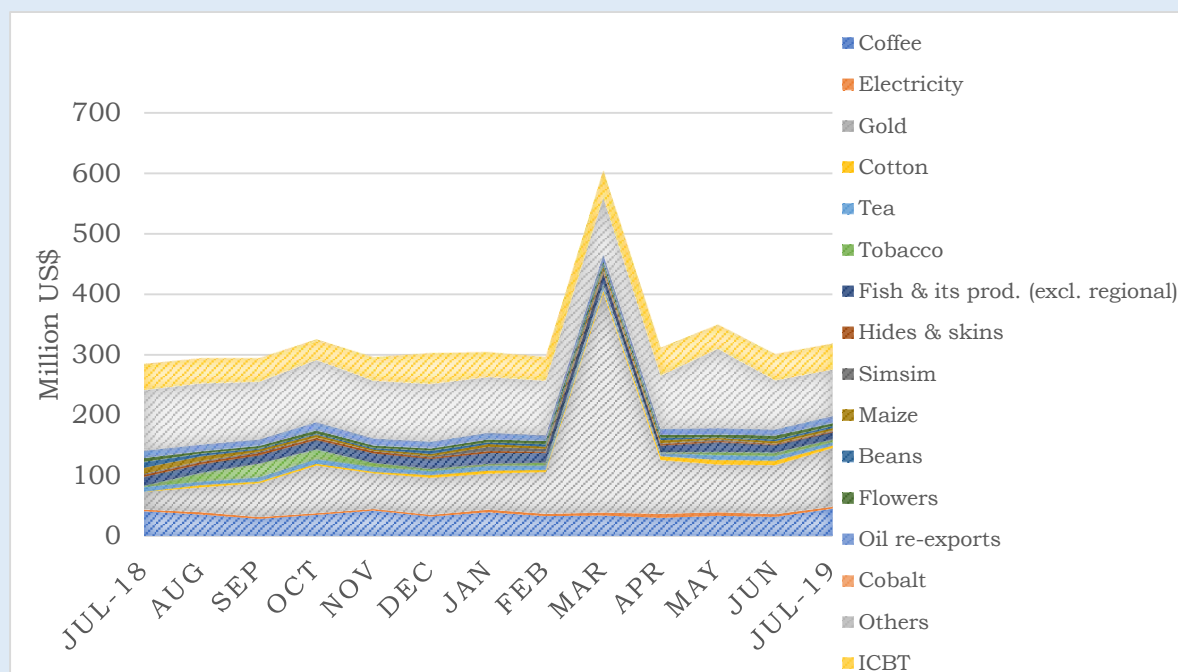

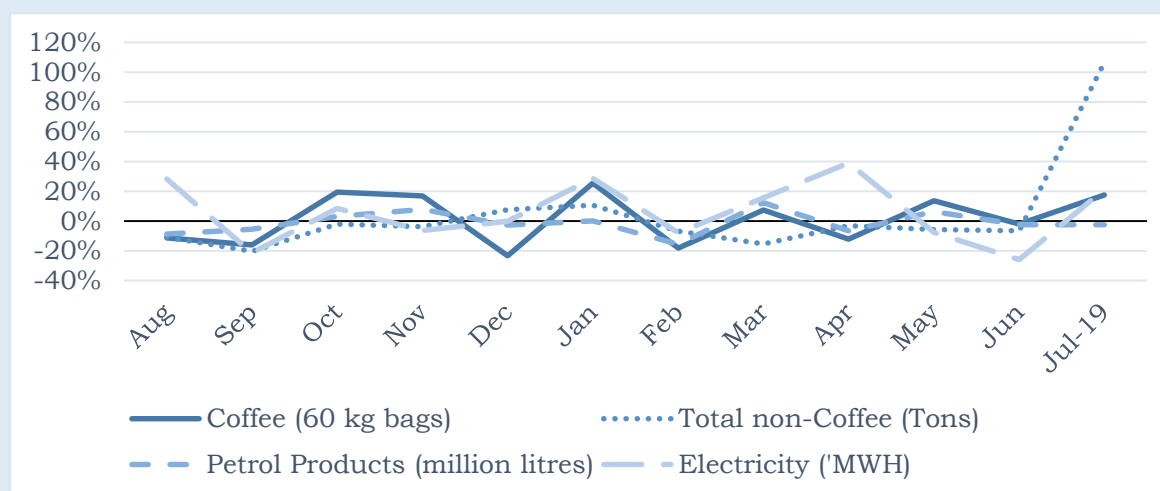

Figure 17: Export volume monthly change (%) (Source: BoU)

Uganda's **export** earnings **increased** both on an annual and monthly basis. Export earnings grew by 5.9% from US\$ 300.63 million in June 2019 to US\$ 318.43 million in July 2019. This growth was attributed to increased earnings from different export commodities such as coffee, cocoa beans, rice, base metals, fruits & vegetables. Earnings from coffee increased following increases in both its volume and the international price.

Compared to July 2018, export receipts increased by 11.9% from US\$ 284.65 million to US\$ 318.43 million in July 2019.

Destination of exports⁷

Figure 18: Merchandise exports by destination (Source: BoU)

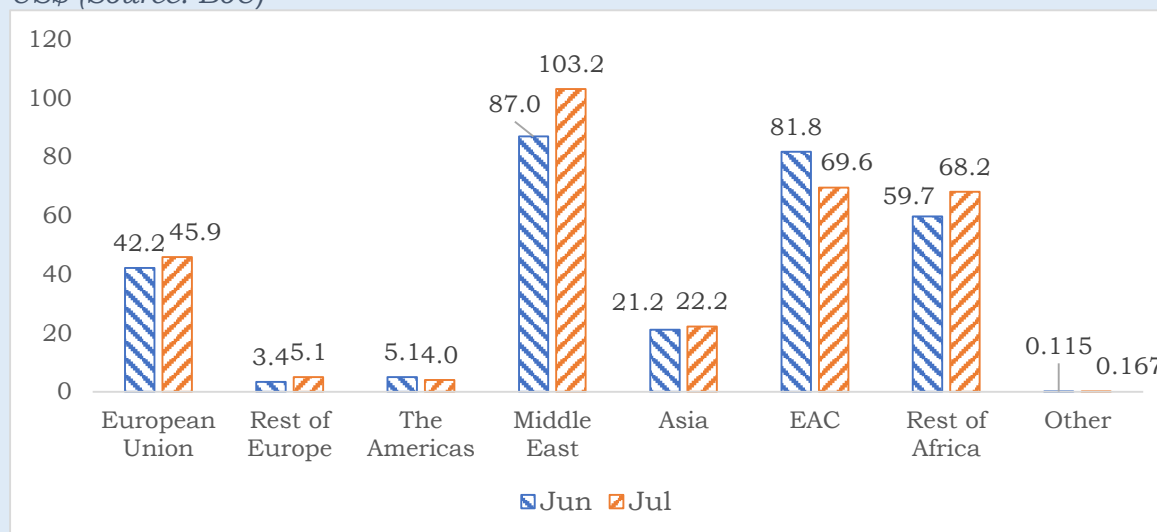

Figure 19: Monthly Comparison of Merchandise exports by destination, Million US\$ (Source: BoU)⁸

In the month of July 2019, the **Middle East** was Uganda's **top destination** for merchandise exports, followed by EAC, then the Rest of Africa. 32.4% of Uganda's merchandise exports were absorbed by the Middle East in July 2019. Exports to the Middle East increased from US\$ 38.08 million in July 2018 to US\$ 103.17 million in July 2019.

Compared to July 2018, Uganda's exports to all regions grew with an exception of the EAC. Exports to all EAC Partner States dropped save for Burundi.

Merchandise imports⁹

Figure 20: Merchandise imports (Source: BoU)

During the month of July 2019, the value of merchandise **imports declined on a monthly basis** but increased on a yearly basis. The value of merchandise imports dropped by 5.1% from US\$ 579.54 million in June 2019 to US\$ 549.85 million in July 2019. This decline was attributed to a decrease in Government imports. Government imports declined by 70.2% whereas private sector imports increased by 5.8%.

In comparison with the same month the previous year, the import bill increased by 21.9% from US\$ 451.21 million to US\$ 549.85 million in July 2019. Both Government and private sector imports registered increases.

⁷ Statistics on trade come with a lag of one month.

⁸ Others include: Australia and Iceland.

⁹ Statistics on trade come with a lag of one month.

Origin of imports¹⁰

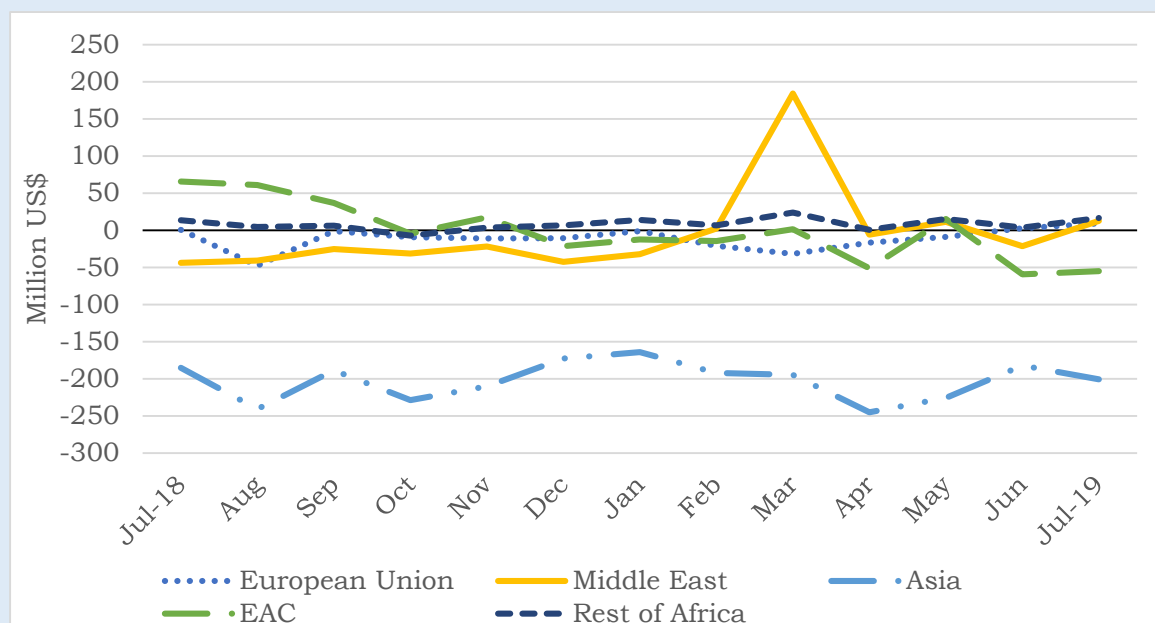

Figure 21: Merchandise imports by origin (Source: BoU)

Asia remained the main source of imports to Uganda in the month of July 2019, followed by the EAC, and the Middle East. China and India accounted for about 68.3% of the imports from Asia.

Within the EAC region, Kenya and Tanzania contributed 98.5% of the total imports.

¹⁰ Statistics on trade come with a lag of one month.

Trade balance by region¹¹**Figure 22:** Trade balance by region (million USD)

Uganda posted merchandise **trade deficits** with the regions of Asia, Rest of Europe, EAC, the Americas & Others, whereas, trade surpluses were registered for Rest of Africa, the Middle East and the European Union. The country had the largest merchandise trade deficit with Asia followed by the EAC. The merchandise trade deficit with Asia deteriorated from US\$ 185.13 million in July 2018 to US\$ 200.47 million in July 2019.

In July 2019, Uganda traded at a deficit of US\$ 54.98 million with the EAC an improvement from a deficit of US\$ 59.33 million registered the previous month.

¹¹ Statistics on trade come with a lag of one month.

FISCAL SECTOR DEVELOPMENTS

Fiscal overview

Table 2: Summary table of fiscal operations August 2019¹² (Source: MoFPED)

<i>(Billion US\$)</i>	Program	Outturn	Performance	Deviation
Revenues and grants	1,701.75	1,383.46	81.3%	-318.29
Revenues	1,564.43	1,360.57	87.0%	-203.86
Tax	1,421.45	1,272.53	89.5%	-148.92

	-	-		
Overall fiscal balance	1,893.12	1,076.66		

¹² Fiscal data is highly preliminary

Fiscal Sector Overview

Government operations in August 2019 resulted into a fiscal deficit of US\$ 1,076.66 billion which was lower than the program for the month of US\$ 1,893.1 billion. This was mainly due to underperformance in expenditure and net lending (by 31.6%) which more than offset the shortfalls in revenue and grants (of 18.7%) Revenues and Grants for August 2019 amounted to US\$ 1,383.46 billion, registering a shortfall of US\$ 318.3 billion. Expenditure and net lending during the month amounted to US\$ 2,460.12 billion against the projection of US\$ 3,594.9 billion.

Domestic Revenues; Domestic Revenues amounted to US\$ 1,360.57 billion out of which US\$ 1,272.53 billion was tax revenues and US\$ 88.04 billion was non-tax revenue. Tax revenues registered a shortfall of US\$ 148.9 billion or 10.5 percent of the target for the month.

All the main tax categories registered shortfalls. Taxes on international trade posted the biggest shortfall of US\$ 70.62 billion, mainly due to lower imports than had been projected for the month. Indirect domestic taxes were also below their target for the month by US\$ 68.72 billion as both excise duties and Value Added Tax (VAT) turned out lower than anticipated for the month. Direct domestic taxes registered the lowest shortfall (US\$ 10.23 billion). This was mainly due to lower collection of rental income tax and corporation tax during the month.

Non-tax revenue (NTTR) also performed below its target for the month. NTR collections during the month amounted to US\$ 88.04 billion against a target of US\$ 142.98 billion. This was mainly due to lower collections for Appropriation in Aid (AIA) by US\$ 37.07 billion in August 2019.

Expenditure and Net Lending

Total expenditures and net lending during August 2019 is estimated to have amounted to US\$ 2,460.12 billion shillings or an equivalent of 68.4% of the projected expenditure level. Both recurrent and development expenditures are estimated to be below their respective projections by 1.6% and 50.4% respectively. Under recurrent expenditures, payment of wages and salaries to public servants, as well as spending on non-wage recurrent items other than interest payments, were largely as planned.

Development expenditure is estimated to perform at only 49.6% as both domestically financed and externally financed development expenditures were below the projections for the month.

EAST AFRICA COMMUNITY DEVELOPMENTS

EAC Inflation¹³

Figure 23: Headline inflation for EAC partner states (Source: Respective authorities¹⁴)

There was **a general decline in Annual Headline Inflation** within the East African Community. Annual Headline Inflation for Kenya reduced from 6.27% in July to 5.0% in August as prices rose at a slower pace for food and non-alcoholic beverages. Likewise, Tanzania's annual headline inflation slightly decreased to 3.6% in August 2019 from 3.7% the previous month, as prices rose at a slower pace for housing & utilities and transport.

In contrast, Rwanda's annual inflation rose to 2.8% in August from 1.6% in July, its highest level since October 2017. This was mainly driven by higher prices of food & non-alcoholic beverages, particularly meat and bread & cereals.

¹³ Data for Burundi and South Sudan not readily available for August 2019.

¹⁴ UBoS, Kenya National Bureau of Statistics, National Institute of Statistics Rwanda, Tanzania National Bureau of Statistics.

EAC exchange rates

Figure 24: Monthly EAC currency appreciation and depreciation against the US\$ [%] (Source: BoU)¹⁵

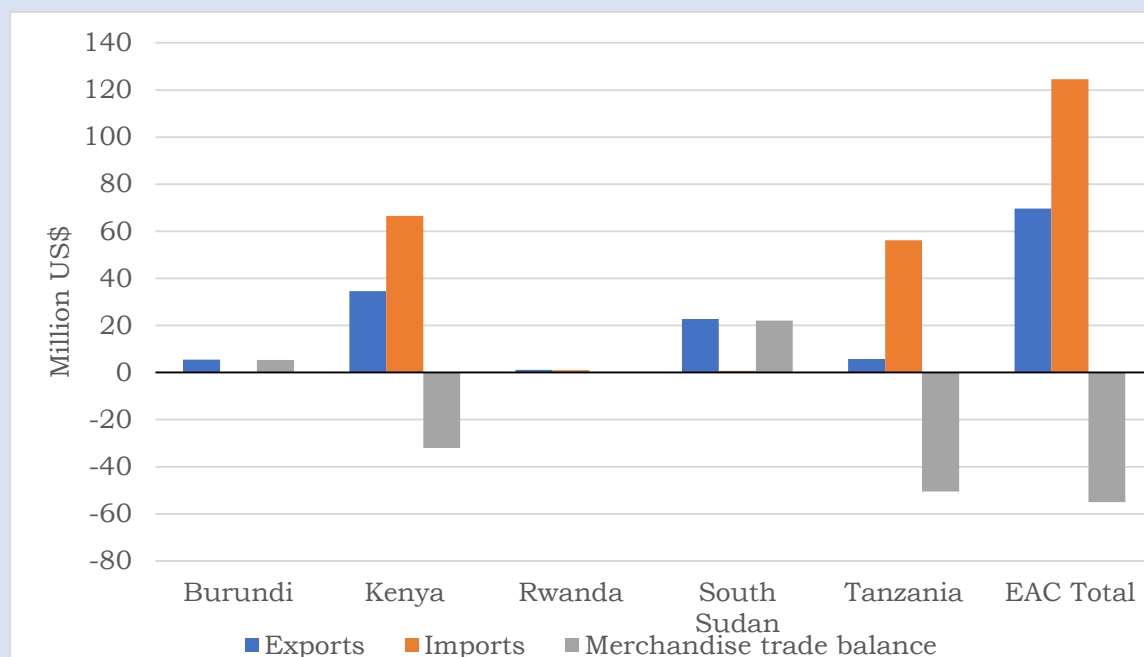

Contrary to the Ugandan shilling, Kenya's, Burundi's and Rwanda's currencies slightly depreciated against the US Dollar in August 2019 by 0.1%, 0.3% and 0.4% respectively. The value of the Tanzanian Shilling remained unchanged against the US Dollar compared to the previous month.

¹⁵ A positive point on the graph indicates a appreciation while a negative point indicates an depreciation.

Trade balance with the EAC¹⁶

Figure 25: Trade balance with EAC Partner States (Source: Bank of Uganda)

In July 2019, Uganda **traded at deficit** with the EAC at **US\$ 54.98 million** compared to a surplus of US\$ 65.68 million recorded a year ago. Over the same period, exports to EAC declined by 41.8% whereas imports increased by 131.1%. Exports to Rwanda registered the largest decline following the temporary closure of the Uganda- Rwanda border.

Uganda recorded a trade deficit with Kenya and Tanzania and a trade surplus with the rest of EAC Partner States.

¹⁶ Data comes with a lag of one month
